Ordinance Table

This table lists all ordinances. If an ordinance is codified, its location in the code is cited by chapter number at the end of the ordinance description. Ordinances are codified if they are general, permanent, and/or include penalty provisions for noncompliance. Additionally, certain ordinances relating to land use have been collected and printed as Appendix A and have an ordinance description indicating this. “Not codified” indicates that the ordinance could have been codified but was not for some reason (superseded by a later ordinance, codified in a separate publication). “Special” means the ordinance was special in nature or for a specific period of time (e.g., budget, annexation, tax levy, street vacation).
