

CITY OF LYONS MANUFACTURED HOME PLACEMENT PERMIT PROCESS

- 1. The applicant must own the property, or the applicant must have a letter from the owner giving permission to file the application for a placement permit.**
- 2. Applicant must have septic approval from Linn County Environmental Health.**
- 3. A Driveway Approach Permit application must be applied for at the same time if a new driveway is needed or if the current driveway needs altered. The Driveway Approach permit will be forwarded to the City Engineer for approval of the proposed driveway approach plan.**
- 4. Applicant applies in person at Linn County Planning & Building or Lyons City Hall.**
- 5. Along with the application include one site plan. The site plan must be drawn to scale, and city staff must approve the site plan.**
- 6. The City will forward the application to Linn County Planning & Building Department for their review and approval.**
- 7. After Linn County approves the plans, they will assess & collect fees, then the permit will be issued.**
- 8. Permits may be paid by any method and issued at the Linn County Planning & Building office – located at 300 SW 4th St, Rm 114, Albany. If paying by credit/debit card, permits may be issued at Lyons City Hall.**
- 9. You must contact Linn County Planning & Building for inspections. Accela Citizen Access:

MANUFACTURED HOME PLACEMENT PERMIT

Property Legal: _____

Job Address: _____

Owner: _____

Address: _____

Zone: _____ Lot Size: _____

Manufactured Home Dimensions: _____

Roofing Materials: _____

Roof Design/Pitch: _____

Foundation Support System: _____

Perimeter Crawl Space Enclosure Materials: _____

I agree to build according to the submitted plans and specifications, the laws of the State of Oregon and Linn County, and Lyons Zoning Code 18.30.120 which regulates the placement of manufactured homes on individual lots. I understand that this permit expires 180 days after the date of approval, but may be extended for an additional 180 days. If the manufactured home is removed from its permanent supports, I agree to remove the supports, the home, and all additions thereto from the property and permanently disconnect and secure all utilities, unless a placement permit for a replacement manufactured home has been obtained.

THE MANUFACTURED HOME SHALL NOT BE OCCUPIED UNTIL ALL PROVISIONS OF THIS ORDINANCE HAVE BEEN MET AND UNTIL THE BUILDING OFFICIAL CERTIFIES THAT IT COMPLIES WITH ALL CITY AND STATE REQUIREMENTS.

I have read this application in its entirety and certify that the stated information is true and correct to the best of my knowledge.

North Santiam School District Construction Excise Tax

What is the Construction Excise Tax for the North Santiam School District?

The Oregon Legislature passed SB 1036, a law that provides a financial tool to help school districts pay for capital improvements, expanded facilities, and equipment needed as a result of community growth. The law authorizes a school district, in cooperation with cities and counties, to tax new residential and non-residential development. Specifically, the tax applies to improvements to real property that result in a new structure or additional square footage to an existing structure.

What does the tax pay for?

The excise tax revenue would be used for capital improvements such as acquisition of land, the construction, reconstruction or improvement of school facilities; acquisition or installation of equipment, furnishings, or other tangible property; related architectural, engineering expenses, legal expenses or similar costs related to capital improvements. The excise revenue would allow the district to purchase and prepare sites for future school facilities and/or to help defray the cost of new school facilities.

Who has to pay and when?

The tax is required to be paid by the developer or property owner who is developing property in the North Santiam School District 29J at the time when he or she wishes to have a permit issued by the City or County. A permit will not be issued unless the tax is paid or unless an approved exemption is submitted on the Exemption Form.

Who is exempt from paying the tax?

The following are exempt from the Construction Excise Tax:

1. Private school improvements;
2. Public improvements as defined in ORS 279A.010;
3. Residential housing that is guaranteed to be affordable (under guidelines established by the United States Department of Housing and Urban Development, to households that earn no more than 80% of the median household income for the area in which the construction tax is imposed, for a period of at least 60 years following the date of construction for residential house);
4. Public or private hospital improvements;
5. Improvements to religious facilities primarily used for worship or education associated with worship;
6. Agricultural buildings as defined by ORS 455.315 (2)(a).
7. The square footage of a residential structure that is equal to or less than the square footage of the residential structure being removed. The structure being removed has to have been currently occupied to qualify for the exemption. (Supporting information confirming the square footage of both residential structures must be provided.)

How much is the tax?

The tax may not exceed:

- \$1.45 per square foot on residential construction;
- \$.72 per square foot on non-residential construction. For non-residential construction only, the excise tax is limited to \$36,100 per building permit.

Whom can I contact for more information?

If you have additional questions, you may contact the North Santiam School District business manager at (503)769-4187 or by emailing jnofziger@nsantiam.k12.or.us

Construction Excise Tax Calculation Form

Building Permit Applicant:

Name (Printed): _____

Address: _____

Phone Number: _____

Construction Address: _____

See *Exemptions Form* for exceptions to this tax.

Construction Category:

- Residential.** Construction excise tax of \$1.45 per square foot of living space in new or replacement structures intended for residential use, including:
 1. All new or relocated single or multiple unit housing, including manufactured housing units.
 2. Conversion of an existing non-residential structure to a residential structure.
 3. Addition of living space to an existing residential structure.
- Nonresidential.** Construction excise tax of \$.72 per square foot for all new or replacement nonresidential structures or additions. Nonresidential construction excise tax is limited to \$36,100 per building permit or per structure, whichever is less.

Construction Excise Tax Calculation:

Taxable square footage of construction.

Times \$1.45 per square foot for residential or \$0.72 per square foot for nonresidential.

\$ _____ Equals total Construction Excise Tax due (maximum \$36,100 for nonresidential).

_____ Deduction of Qualifying Exemption if application

_____ Adjusted Total Construction Excise Tax

Jurisdiction Issuing Building Permit: _____ Permit No. _____

For questions on this tax, please contact North Santiam School District Business Director, Jane Nofziger, (503) 769-4187.

**Construction Excise Tax Exemption Application Form
For North Santiam School District 29J**

APPLICANTS NAME: _____
PERMIT No. _____
Address: _____
CITY: _____ **STATE:** _____ **ZIP:** _____

Exemption Description (check applicable exemption):

- 1. Private School Improvements.
- 2. Public Improvements as defined in ORS 279A.010.
- 3. Residential housing that is guaranteed to be affordable, under guidelines established by the United States Department of Housing and Urban Development, to households that earn no more than 80% of the median household income for the area in which the construction tax is imposed, for a period of at least 60 years following the date of construction of the residential housing.
- 4. Public or Private hospital improvements.
- 5. Improvements to religious facilities primarily used for worship or education associated with worship.
- 6. Agricultural buildings as defined in ORS 455.315(2)(a).
- 7. The square footage of a replacement structure to a formerly existing residential structure which is equal to or less than the amount of square footage in the removed structure. (Attach supporting documentation). The original structure must be in a condition that is able to be occupied. For example, an old structure that is not in adequate condition to be occupied, will not meet the conditions of the exclusion. The structure being removed has to have been currently occupied to qualify for the exemption.

Application for any of the above exemptions provides consent for the District to audit the applicant's records to verify the legal status and compliance with the exemption prerequisites.

I do hereby certify that by signing I am verifying eligibility for the above Exemption to the Construction Excise Tax.

Issue: Indexing of School Construction Tax Limits

Statute Reference: ORS 320.170

Last Updated: 6/23/2021

Background

Passed in 2007, Senate Bill (SB) 1036 allowed school districts to impose a tax on new construction measured by the square footage of improvements (affordable housing, public buildings, agricultural buildings, hospitals, private schools, and religious facilities are exempt). SB 1036 defined and required revenues to be used for capital improvements. Construction taxes imposed by a school district must be collected by a local government, local service district, special government body, state agency, or state official that issues a permit for structural improvements regulated by the state building code. An intergovernmental agreement with local governments collecting the tax is required and collection expenses are limited to 4 percent of tax revenue. DCBS is allowed to establish an administration fee of .25 percent of tax revenue. School districts with construction tax revenue are required to develop long-term facility plans. Construction taxes may be used for repayment of capital improvement debt.

Tax Limit Calculations

SB 1036 set tax rate limits of \$1 per square foot for residential use and \$0.50 for nonresidential use, along with a \$25,000 tax limit on nonresidential properties. Beginning in 2009, tax rates were indexed to inflation using the Engineering News-Record Construction Cost Index. As prescribed in statute, DOR is responsible for updating tax rate limits and notifying affected districts. To notify affected districts, DOR has partnered with the Department of Education, who receives updated limit calculations from DOR and notifies the affected districts.

Tax rate limits by fiscal year:

Fiscal Year	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23
Residential*	1.20	1.23	1.26	1.30	1.35	1.39	1.41	1.45
Non-Residential*	0.60	0.61	0.63	0.65	0.67	0.69	0.70	0.72
Non-Residential Max	29,900	30,700	31,400	32,600	33,700	34,600	35,200	36,100

* Dollars per square foot

LINN COUNTY PLANNING AND BUILDING DEPARTMENT

Robert Wheeldon – Director
Suzanne Larson – Building Official

Room 114, Linn County Courthouse
PO Box 100, Albany, Oregon 97321
Phone 541-967-3816, Fax 541-926-2060

Submittal Requirements for Manufactured Dwellings

Linn County approvals must be obtained before a building permit can be issued.

1. LAND USE APPROVAL:

- a) If your building project is within a city, you must obtain land use approval from the city.
- b) If your building project is within Linn County and not within the city limits, land use approval must be obtained from the Linn County Planning and Building Department.

Note: Some planning reviews or hearings may delay your project. You should begin this process well before you wish to start building. Talk to the city or county planner about your project for specific requirements.

2. SANITATION:

- a) If your property is served by a municipal sewer system, approval must be obtained from the municipality.
- b) If a public system is not available, an on-site sewage disposal system may be used. For information regarding an existing or new disposal system, contact Environmental Health at (541) 967-3821. *Please contact this department regardless of the type of proposed structure.*

Note: Some delay may be experienced in obtaining sanitation approval. You should begin this process well before you wish to start building. Talk to a sanitarian about your project for specific requirements.

3. ROADS AUTHORITY:

- a) Prior to submitting for a permit, obtain approval from one of the following: Linn County Road Department at (541) 967-3919, Oregon Department of Transportation at (503) 986-3435, or your local municipality.

4. FIRE AUTHORITY:

- a) Prior to submitting for a permit, obtain approval from the local fire authority. Complete the Access & Water Supply worksheet and return the form signed and approved with your plan submitted.

5. BUILDING PLAN REVIEW:

- a) *Residential:* See Requirements and Submittals Checklist.
- b) *Commercial:* See Requirements and Submittals Checklist. A pre-application meeting may be required for commercial or industrial building projects. Contact the Linn County Building Official for this determination.

Linn County Manufactured Home Placement Permit Process

The first step in the process of placing a manufactured home on your property in Linn County is to obtain **Land Use Approval** from the Planning and Building Department.

After obtaining land use approval, the next step is to contact the Linn County **Environmental Health Department**. Disconnecting and reconnecting to a septic system requires a review.

Once you have been issued your septic permit, you may submit your **Placement Permit Application** to the city or county where the property is located. For properties located outside the city limits of Albany, Brownsville, Halsey, Harrisburg, Lebanon, Lyons, Mill City, Scio, Sweet Home, and Tangent, you will submit your placement permit to Linn County Planning and Building Department. The permit fees for this permit vary and are based on the size of the manufactured home (single, double, or triple) and any additional items such as a new electrical service, heat pump or air handler, wood burning, pellet stove or natural gas heater, or a well or septic pump.

After being issued your placement permit, you must contact the Tax Assessment office at the county that the manufactured home is presently located in to obtain your **Transportation Permit**. To obtain

this permit, you must have information on your manufactured home and the name of the transportation company.

You may also be required to file papers with the Tax Assessor's Office in regards to ownership of the manufactured home.

The following contact information is provided for any of the departments involved in this process:

Linn County Environmental Health
315 SW 4th Ave, 2nd floor
Albany, OR 97321
Phone (541) 967-3821
Fax (541) 924-6904

Required Inspections for Manufacture Home Placement

General Information

It is the responsibility of the permit holder to see that all inspections are made at the proper time and the address and lime green locator card are visible from the road. The yellow inspection card must be on the job site at all times. Inspections may be requested at any time by calling (541) 967-3816, option 1.

All inspections shall be made and approval given before the home is occupied.

When an inspector must enter an occupied building to make an inspection, the owner must accompany the inspector or an adult authorized by the owner. If the building is unoccupied and there are no personal items in the building, the inspector may go in to make the inspection. If there are any personal items in the building, the inspector will not enter the building.

Order of Inspections – *Each item must be scheduled for inspection in sequence*

- **Site Inspection** – Before doing any excavation or fill, a site inspection is required to determine stability of the soil. A separate grading or fill permit may be required per Linn County Fill and Ordinance *if* cut and fill exceeds 50 cubic yards or placed at a depth greater than 6-inches; this will require an Engineered Geology Report.
 - **Note:** Any fill greater than 6-inches in depth requires a compaction report.

- **Concrete Footings (Stringers or Slab)** – To be made after forms are erected and all required reinforcement steel is in place, but prior to pouring any concrete. *All property lines must be identified.*
- **Service Pedestal – Electrical** – After service pedestal and meter base has been installed. If service is approved, the inspector will place a green tag and the power company can energize.
- **Blocking and Utilities** – After the home is blocked, cross-over connections, vapor barrier, bonding, feeder electrical line hooked up, all water and sewer connections are made (*prior to burial of all utility lines*). **Skirting shall not be installed until after the installation inspection has been approved.**
- **Final** – After the unit is skirted with the ventilation in place, decks, landings, stairs, hand and guardrails, and grading is completed. **If skirting is installed prior to the installation inspection, the permit applicant maybe subject to a re-inspection fee of \$90.**
